

Benjamin Franklin's money story.

"Back in the 1700's the American Colonies were doing rather better than was expected for a backwoods land. No one paid income tax, yet prices remained stable with no inflation. There was not a single unemployed man, no poor and no vagabonds. When Benjamin Franklin was asked how he could account for all this new found prosperity he replied:

"That is simple. In the Colonies we issue our own money. It is called Colonial Script. We issue it in proper proportion to the demands of trade and industry to make the products pass easily from the producers to the consumers.

In this manner, creating for ourselves our own paper money, we control its purchasing power, and we have no interest to pay to no one."

Breaking all the modern conventions of economics, the Colonies continued to prosper producing their own unbacked interest free money, until the production of Colonial Script was made illegal by the Currency Act of 1764..

This was an act pressed into law by the Bank of England fearing the production of Colonial Script would put them out of business.

This act forced the Colonies to pay taxes in the form of gold and silver to the British Central Bank and, as a result, the Colonies effectively handed back control of their economy to old world interests who, for the most part, would never see the new world as anything more than an entry on a balance sheet.

The effect of losing the Colonial Script on the Colonies was disastrous, bringing a rapid end to their prosperity as economic depression set in."

<http://wiki.p2pfoundation.net>

Thank you for looking at this proposal for EweGrow.com and The Shepherds of Freedom Alliance. My name is Peyton, and I have worked to synthesize a plan that covers the breadth of societal repair minimally needed for We, The People to enact the responsibilities of real freedom. This pamphlet was made to describe a remodel of current monetary, justice, educational, and political systems, within the confines of a business plan. I use the following acronyms respectively, Monetary/FUN, Justice/FoJ, Educational/ALL, Political/PEG, and for the Alliance itself/ SoFA.

IN these pages I describe the fundamentals of each remodel. As well, the fundamentals of approaching freedom through an enterprise doorway, and how to create mutual prosperity while doing it. Can this Alliance spread beyond the US borders? I hope so.

Of course, there are many of us working on many ideas and projects. I believe in this EweGrow plan specifically because of its **PEG** offering. PEG is, I believe, the most straightforward manner of collective expression of will. PEG offers our allied efforts a manner of implementing directives together, across many disciplines and efforts. PEG makes the plan you have here, very powerful, and quite different. Using PEG, all people in the Alliance with proposals (and even upgrades to this EweGrow plan) can offer them to the Alliance for enactment. FUN is for living as equally free people, with all our variety of skills, motivators, and passions.

I am keenly aware, as most of us are, that time is quick, and we live in a time where lallygagging and dawdle works against our future. With the speed that the deep state has at its disposal, I believe that the plausible benefits of this plan for the good of all will only occur through our known Freedom Leaders, Truth Speakers. It cannot traverse the bridge to Freedom without our public leaders. For that reason, I promote it to you, and pray for your interest. I am looking for 6 partners who are established Freedom Leaders, to join with Olu, an IT expert and successful family and businessman in the US from Nigeria, and myself, the creator of this synthesis. Each partner brings 10 k to the table. Each promotes the plan to the public. EweGrow will be an equally partitioned 8 member-managed LLC. It will be a chance for 6 of you to work together to promote the next step for Freedom.

While PEG, FUNs, ALL, FoJ are radically different, what I so love about them, is how they are doable, they are readily doable! What I love about this plan is how the Shepherds of Freedom hails a vision of protectiveness, and leadership. And the Alliance of Shepherds gives us an icon of collective strength, fortitude, inner quietude, self knowledge and openness to the great Spirit.

This is my protected intellectual property, I offer it to you with a request. Ponder it, Pray on it, see what Grace tells you.

The door to freedom hangs from an economic threshold, and if we make that doorway mighty and strong, we can stand in it during all the quaking that's ahead, and pass through it to a land we have remade. EweGrow is designed by a visionary entrepreneurial political activist observing how political revolutions are by nature violent and return We, the People back to the point we attempted to leave, therefore politics is not the path for We, The People to make monumental change. Economic empowerment is the stuff of real change and real power.

EweGrow.com is not just a company that wants your business. Those are everywhere. EweGrow.com is the proposed portal for activities that add up to a free society's needs. In this booklet you will find a page is dedicated to describing each acronym, FUN, ALL, FoJ, SoFA, and PEG. EweGrow provides an online entry point for the remodel of principle arenas of society.

EweGrow brings all the elements together that free willed people will need to accomplish the breadth of necessary change in the least disruptive, most natural, normal, and importantly, lawful and lasting way, while leaving room for growing into a better and better process.

Obviously, We, the People need leaders with strength of will, and fortitude of character at the helm of what I call The Great Healing. Here is a ship big enough to hold us all.

Give these pages a chance to show you something special and great, achievable shoulder to shoulder.

I've written a little story about the black sheep of EweGrow to help the plan along.

 Sheep be with you.

	Amazon	These corporate businesses use wage slavery to grotesquely enrich their owners. EweGrow.com is established for We, the Free People to thrive and prosper in economic coordination.
	Walmart	
	McDonalds	
	Etc....	

This story is told by a black sheep  who identifies as the name Peyton.

When Peyton was but a tiny lamb in Mary's arms, Mary had plans for Peyton's education. She brought Peyton to school with her as soon as possible. In class, word of hardship and war reached the little furry ears. Peyton learned about wolves, who for Mary's kind, were the powers that be, the elite. Peyton being just a little lamb, called them Bleaters. When Peyton got older, they became the Powers that Bleat.

As a result of the education, Peyton saw the elite betray humanity, from verrrry far off, from waaayy baaaack. It bothered Peyton more than Mary, it seemed, that the Powers that Bleat, acted like wolves, running the herd, this way and that, frightening them and stealing their pasture acre by acre. "We want Taxes!" they said, "to care for the chickens". "Taxes!" they said to fence the pastures, and keep up with the water buckets. "Taxes! for the veterinarian!" They even messed with their heads. "Taxes!" They said, "To kill all the wolves!, the wolves are everywhere, lurking in the herd!" So they sheared the sheep in winter, pretending to suspect them as wolves. The sheep shivered, and tried to keep up their payments.

And the Powers that Bleat made war happen, and took more taxes and more and more lives and more of the herd got killed. Even though the herd knew the Bleaters were killing others just like them, they were still too afraid to stop them though.

Peyton surmised correctly, that the ones with power were not after peace at all! Indeed! They prodded all herd into debt, making them see red, charging interest for every dollar the herd used. The bleaters pressured the herd to try to keep up with the Jones, who were **always** more stylish than they, no matter what.

Peyton was soon fully grown, and parted from Mary, to learn to outsmart the Bleaters. cont.

Along came 2010, and Peyton campaigned before the herd "Forget about the Joneses! With Public banks," Peyton baaaad, "the herd will keep up with R. Joy and Mister E." . . Peyton bleated "Let's do money for the good of the herd!" Most of the herd didn't see the wolves for the thieves, sneaking about in governments, news and movies, and Peyton only got a dry throat (likely from such a dry subject) and although the public money message was liked by the herd, it was not accepted by the pack of bleating wolves serving as politicians.

A very adaptive black sheep, Peyton next barked like a Sheepdog, all over her state, adding a new message for a republican't campaign: "Hemp for everything, from homes to plastic, from car bodies to medicine, to clothes and paper". After that, the herds got hemp, which was very good. They also got Mary J.

Peyton wanted them all to have fair money too, for their higher selves.

So, Peyton went into business and built a prototype hemp home with her friends, to show a natural home that would not blow down, would not burn and would not rot. Peyton and friends made one that could be moved, and could expand and grow and grow. "This home will keep you warm all in, and leave the toxins all without" Peyton quietly also surmised the wolves who lend money also fund pharmacy funny business, who themselves like sickness very much.

Then 2020 came with covid and their ready plan. The Powers that Bleat locked up the herd, decided who could be heard, covered their faces and shot them up, just to work! Peyton made like a Shepherd and shook the crook at the pack of politicians who now looked less like wolves and more like Monsters. The Monsters all continued their woeful work, destroying every good thing about humanity they could, pretending it was for the protective good of the herd. But it most certainly was not. It didn't even work. This is when Peyton began to see, Freedom starts with the economy.

cont.

Peyton was done with politics, it was too *bleating* riddled with Monsters out to make hatred happen between people. They never did what was best for all, although they always said they would, the good never showed up in the way it should.

Over time, the sable sheep developed a remedy, a remedy to fix the fixed nature of politics. A remedy that couldn't have come in 1776. Proposal Enactment Governance. The more Peyton thought through PEG, the more it became clear how it can help We, The People become more united, get representation that enacts the ***will of the people*** without any political parties needed or wanted whatsoever! "It's such a relief, just to consider!" Peyton exclaimed outloud, "No more politics as a color by number exercise." Indeed the black sheep decided PEG was woolly hat worthy. "People have very little free time, and why would they want to learn how to use PEG?" The sheep thought. "They would have to be motivated, there had to be something in it for them." For people to use it, there has to be something in for them. It has to happen in a way not about politics. Rather PEG had to be used for mutual empowerment. It had to be FUN.

One afternoon while grazing under a tree in the beautiful sunshine, Peyton pondered that PEG needed to happen in a special group of people, a group that was ready to take a step. Not a big step necessarily, a little step, a shopping step. "Yup, that works"

"What would I call such a group?" Peyton pondered over a yummy mouthful of sorrel, burdock and clover. The dark mutton looked over to the Shepherd standing watch nearby, playing a little fiddle tune that mixed with the summer breeze so nicely. His staff leaned on the rock. Peyton recalled being rescued out of a ditch with that staff as a lamb, and once, the Shepherd used it to beat up a snake. A group of Shepherds maybe? "A group of Shepherds!" Peyton announced out loud, so loud it woke the resident owl, sleeping in the tree overhead, "Whoooo?" "A group of Shepherds, that's who." The sheep winced at waking the Owl. A full minute later the Owl announced "An Alliance would be better than a group. The Shepherds are of Freedom, are they not?" Peyton could swear Owl could read minds. "Yooooou know I dooo!" The Owl said and closed her eyes again. Peyton cried out, I need to ask you something!" "Yes, You absolutely dooooo!" Owl hooted, "Yooooou must learn about the right to privately contract, observed by law in membership associations. And don't call it a group. Call it an Alliance, an Alliance." " Oh, Thank Ewe!" Peyton exclaimed, thrilled. Owl continued, "I know who is king of privacy law, a real Ace of Coins. Go find him, he will guide you." Owl pointed her wing south. And go see OLoooooo. She pointed her other due west. "Whoooo, Olu can help you tooooo, he is a whiz at biz and IT tooooooo." " Wowie Zowie!" Peyton bleated, "I have a lot to do!" Yes, you dooo" "Ok, I'll get right tooooooo it" the sheep said, imitating Owl, who in turn insisted, "Now, I need to snooooooze."

Peyton trotted off over the hill to meet Olu, and to find this Ace of a king. cont.

Being a very intuitive black sheep, well read, well researched, Peyton set about to design a castle fortress for the economy. After all, Peyton's black sheep incarnate package came with a 3 God gifts: inner vision, creation, and manifestation. Peyton's would not be just *any* castle fortress, it had to be a fortress for the economy to works for the good of all. An economic castle fortress for all of Nature and all of life and importantly all of the red blooded good hearted people (not the black hearted monsters). Peyton began to see a business fortress all big in the curves, rather like this:

Deep in the black wooly's brainiac studio space, Peyton began to design the foundation of this castle fortress business. The fortress had to accomplish a number of very important things:

- It had to bring economic power to We the People, the Salt of the Earth.
- It had to help them make proposals, decisions and act upon them together without taking up too much time, or favoring the most alpha amongst them.
- It had to financially help the People to embark on and begin a Great Healing.
- It had to prove its methods, and it had to grow and grow.
- It had to happen before very long, before the Monsters destroyed much more.
- It had to be something completely new, and be easy to do, and natural too.
- A business fortress like this needed to form an Alliance with likeminded people.

Being a black sheep who knows wisdom when an Owl speaks it, Peyton named the Alliance, the Shepherds of Freedom, and the business, EweGrow.

Peyton knew the castle fortress had to built By the People, for the People and with We, The People, and it needed a way to keep the Peace of the People. The system available wasn't working for real justice. Peyton knew it was because it was made to serve Monsters and their money system. Monsters loved it, they rested soundly in its deep dark legal places, bedding down in gnarled'n snarled contracts woven with long fibrous run on sentences of contradictory terms all to keep them steeped, stuck and totally in power.

It had monstrous results for the Good of All. Peyton got sooted up plenty trying to get some justice in the Monsters' court system. "Soot happens," the dark sheep posited, "even when you win." Peyton became even blacker than before. Peyton knew there had to be a better way and often day dreamed out in the pasture of just how that could be.

Sheep have slow-cooker thoughts, and on the side, even while EweGrow, SoFA, and FUN were just about ready to serve, the sheep noir build a Fountain of Justice, fed by the spring of answers from a singular lawful equation. "What is the lasting remedy for the good of All and the Good of Each, given this unique situation?"

"Took a lot o' life path to distill that one" the black sheep pondered, watching clouds roll past a nearly full moon. It wasn't long before another problem came to the "And, what about health? Is that a sub-function of proper wealth?"

Nibbling on a white birch tree, with chaga growing on it, Peyton understood Nature would take care of the health of all the people. Nature is the true wealth of people, if only the People had a way to take care of nature. - In a loving and patient way. -In a happy and vacation way. The animal kingdom, Peyton knew, would show the people how to love and be patient, but a happy and vacation way? A debt and tax free money system could only do that. ON top of that, Peyton knew the monsters were plotting to make a new CBDC money system that's programmable! Part of their build back better plan. "That's no FUN." Peyton emphatically snorted. "Then they will be able to program your money. They say you can or can't spend it. Everything digital, and programable and traceable. No FUN whatsoever."

Soon a light bulb lit up in the ovine's mental oven and kept running and running - on Freedom's energy. "FUN is what it is all about, after all." The economic fortress Peyton has in mind, has to be FUN for trading. What does FUN stand for?

cont. on page 12

FUN is Freedom's Universal Note

Like the Founding Fathers' colonial scrip, FUNs is a currency in the business domain of We, The People.

EweGrow's job is to get the people familiar with them, and to introduce them from scratch, as well as to initiate the People into a PEG process to be able to directly manage and issue them.

Here are some givens about Freedom's Universal Notes

- They are always direct issued without debt.
- They are never the object of taxation.
- They are issued for purposes: protective or peaceful, for family and community.
- They are the object of PEG, proposal enactment governance, and the supply of FUNs may be increased or decreased according to collective desire.
- They can be privately exchanged for other currencies, however, EweGrow will offer them in exchange for membership costs, and facilitate their redemption on EweGrow.com, but not exchange them for other currencies or back to dollars.
- They shall be used absent surveillance, (that being a violation of 4th amendment).
- They will be digital/crypto and asap, in cash form.
- They are used for private trade in a private contractual space, in a private Alliance of members.
- If their use is abused, that will be a matter of accusation and subsequent FOJ process.

What happens if FUNs are used and their use grows and grows until a majority use FUNs for money? Let's follow the story, where will FUNs lead us? Remember, at first, FUNs are initiated through 75% of everyone's investment in EweGrow. However, because EweGrow also initiates PEG and the Alliance of Shepherds of Freedom, their use comes into the domain of decisions made by the entirety of all the Alliance. At some point in time, the Alliance will step into full control of the FUN supply as needed, by direct issue.

The need to dramatically increase wholesome, healthy and nontoxic food supply, will cause the Alliance to vote to fund organic farming businesses. With the electricity on/off switch in a distant AI hands (much like programmable CBDC), the Alliance can focus their proposals for businesses that manufacture alternative clean types of energy devices.

More actual healers, rather than drug pushers, unfettered by Big Pharma or Governmental censure can be trained and supported by Alliance PEG vote.

Other private membership associations can work together with the Alliance in overlapping ways.

Businesses and services chosen to receive funding, shape how the economy of The Great Healing will grow.

An Alliance of Shepherds of Freedom

Contracts are the formative basis of the US justice system.

The Alliance exists by mutually beneficial contracts to counter external corrupt motives and practices.

The Shepherds of Freedom Alliance promotes the contractual authority of each member.

More about how to be a Shepherd of Freedom in the Alliance on pages ahead.

The Governance method called PEG allows all members' proposals. The best are made manifest.

The FOJ method of direct justice is used by EweGrow and members of the Alliance.

FUNs are a means of exchange shared by the Shepherds of Freedom in their economic Alliance.

ALL is a new approach to sharing and gaining wisdom and assessing knowledge.

PEG Proposal Enactment Governance

PEG can be scaled from local to international use. It will be used to interconnect the Alliance.

It brings the will of the People directly to bear and allows the best wisdom to rise.

The Alliance will be introduced to PEG by using it to decide where their pooled membership investment is made. They will choose the recipients using PEG.

To reach enactment phase, a vetting procedure of candidates suited to fulfill enactment of each proposal happens. The best suited are voted in and given a time frame and a budget. PEG can be cycled for shorter or longer periods.

PEG updates a republic form of governance to the 21st century. This method is proposed to rebuild our country under the watchful direction of We, the People.

This will create comfort and familiarity with it, and interest in it.

Your fingerprint is used to manage your unique vote.

Here is an idea of how the proposal process would look online. Vetting leaders looks different.

Proposal #55 Yes Votes 1

FoJ

Fountain of Justice

True Justice always solves
the Fountain of Justice Equation:

"What is the lasting
remedy for the Good of
All and the good of each, given
this unique situation?"

The FoJ process is free of lawyers judges, codes, and statutes. It serves justice more profoundly. The FoJ process derives its process from restorative, Common Law, indigenous process, and God's Law.

An accusation initiates the FoJ process, and the situation may be cured at any point. If the conflict reaches the Grand circle of 25 Contemplators these 25 people come up with the final solution. There are no appeals. All parties to an accusation are subject to the Contemplators' solution.

All are innocent unless an accusation challenges this presumption.

An accusation of intent acts as a prevention of harm.

These circles represent the 4 circles of Contemplators who solve the Fountain of Justice Equation for the participants and greater community. The smallest one has 1 Contemplator, we call it the Minor Circle, and its contemplator acts like a mediator. The next circle has 7 Contemplators, and it is called the Major circle. The next larger circle has 15 contemplators, and it is known as the Great circle. The last circle is the largest, it has 25 Contemplators and is known as the Grand circle.

Peyton went over the design again and again. And again and again, looking for flaws, fixing the details.

"The enterprise castle fortress has to be one people would *like* to occupy, a place where they **want** to **trade, meet and participate**, an inviting and wholesome space, nothing sordid or contrary. Baaaack to Baaaasics for the good of every family, friend and neighbor. Beautiful inside and out, Fountains of Justice, ALL in the gardens. It also has to allow for activity *OUTSIDE* the fortress, and expansion of the fortress grounds"

With the FUN part done, PEG holding in place, ALL there, and FoJ too, Peyton had to find helpers to build this the enterprise castle fortress. The task began to occupy the GPS of the ruminants' heart. Who to invite to the SoFA first? This dark and wooly one, knew just where to start. "The ones speaking truth so well, lighting the way, these are the makers of a better way, the makers of peace, builders of knowledge. I'll seek out the true leaders, the ones people acknowledge."

Peyton made up this run of pamphlets with many the important points, carefully laid out like pollen for the mighty buzzing bees, who here are the mighty Truth Speakers, awesome Freedom Leaders, all working to remedy and prevent even worse monstrous outcomes.

And, so here we leave the story. Next, our black sheep must find Freedom Leaders who wish to work together and break ground for the enterprise castle fortress. The site must be prepped, the FUN plumbing installed, the PEG wall erected, and ALL pounded in, the promo team selected. Fountains ready in the Garden. **Peyton's life training gives her faith, with God's guiding hand, all that's needed is absolutely bound to be found. By the grace of God this plan has found your inner space.**

The following pages hold an outline of projected business values, income streams and more. With 8 partners EweGrow's prosperity will be equally shared. Clearly the success of EweGrow™ is dependent on the number of participants in the Alliance, and the capacity of the member-managers to bring those numbers on board is the core of its success.

While it may seem counterintuitive, the plan to provide 75% of EweGrow investment to a pool for distribution to other businesses, helps the word spread faster and our SoF Alliance to grow.

I believe everyone who receives this proposal understands intuitively that we are set about to describe a broader wealth than simply numerical, and a wealth that no longer depends on controlling anyone else, or oppression or usury of anyone else's vital life purpose.

Wealth as we redefine it will be collectively comprehended as the wellbeing of the all people and All of Nature sharing the planet.

EweGrow has excellent talent to show us how to protect our prosperity in our right to privately contract, and to keep the majority of prosperity beyond the reach of the deep state.

EweGrow is a pass through C corp, LLC, and will be hiring independent contractors rather than building up a large staff pool.

We will be after 5% of Amazons marketshare within 5 years. Given current market conditions, this is entirely possible. With their share at 37% valued at 960 billion, 5% translates to prosperity for the members, even when distilled and distributed.

I seek 6 Truth Speaking Freedom Leaders comfortable in the public eye, with the capacity to interest large numbers of people to come on board. These will fill 6 of 8 member managers of EweGrow.

I hope these individuals will be excited to work with each other on the Alliance and EweGrow. I will be holding unfilled percentages of the member manager owners until they are filled. We will use PEG, and FoJ for our internal needs.

If you become a member manager, your site and shop will be prominently featured on EweGrow, increasing traffic to your work.

As we know, the deep state, once it catches on will attempt to stop us. We will create/partner with a legal team in a nonprofit to protect our right to private association and agreements, as well to fight the protective and restorative fight ongoing. As member managers, our job is to build the SoF Alliance and its comfort level with using PEG, FUN, FoJ, and ALL so that the Alliance of We, the People can grow in strength and carry on the function of self-governance beyond our time.

You become a member of the Shepherds of Freedom and the Alliance by investing in EweGrow, and so receiving FUNs of the same amount in return.

EweGrow sets 75% aside of the amount you invest into a pool of collected funds to finance small businesses according to your vote. As a member, you'll be able to propose and vote for the businesses that receive this financing. The other 25% of your investment is dedicated to first building, then maintaining EweGrow, and its work on the web site.

When the EweGrow becomes prosperous and able, it will branch out to initiate support for local EweGrow employee owed trusts.

The businesses accepting funds offered by PEG proposal vote will be obliged to put a portion of their retail products or services for sale on the EweGrow site in an amount 25% higher than the value of the funding they received. Offering these in exchange for investors' FUNs.

Therefore the whole sum of everyone's investment will be matched by the value of products/services offered for the FUNs, with an ever growing variety of choices. Additionally, everybody who wants to offer a product/service for FUNs is able to. In view of the elites' plans for a Central Bank digital currency, Freedom's Universal Note, as a matter entirely of private contracting, and not the business of the Federal Government, will draw the interest of freedom-needing people.

Example: if an elected business receives 40k from EweGrow, it is spent to make products or services, and in return the elected business offers 50k worth of products/services at retail price available for FUNs of the investors.

Beyond retailing 125% of initial financing for products/service FUNs, businesses sell the rest as they see fit, with sales on EweGrow available using other means of exchange than FUNs.

Sales by the general public and by members of SoFA on EweGrow.com using means other than FUNs (US Dollars, Gold or silver bonds or other currencies, crypto) will be simultaneously going on with sales using FUNs as described, however, sales using FUNs will be only accessible to SoFA members. Sales outside of FUN use will be subject to (a more competitive) fee than Amazon, eBay and Etsy.

SoFA is not open to anyone and everyone, it is preserved for those who are dedicated to the responsibilities of Freedom and The Great Healing of people, lands, water, air, food and the expansion of cleaner, freer energy. Membership will be defined by allegiance to the People as opposed to oppressing authorities. Members will be invited to invest regularly in FUNs, to use them in trade and accept them whenever plausible.

EweGrow and SoFA Marketing

EweGrow is meant to be promoted by Freedom Leaders and will feature Freedom Leaders on the website.

Thus, a Freedom Leader who already has a store/a show/a site, is additionally seen on EweGrow.com.

Market presence on EweGrow is best for businesses and organizations that directly support rebuilding our economy for The Great Healing.

Additional contracts with social influencers are planned to promote sales at EweGrow.com.

Use of FUNs are a matter of private contract with members of the Shepherds of Freedom within the Alliance. This is why the SoF Alliance can propose an increase of them by direct issue, without debt or taxation, and anyone in the Alliance can also choose to accept them for anything.

Introducing and familiarizing We, the People with their capacity to privately contract together alters the control of the economic environment for the better. EweGrow will promote knowledge and use of contracts, offering We, the People a greater stake in the broad improvement of overall health and cleanliness of our environment, our water, our food, our air, and the safety and security of our communities, and an increase of knowledge across the spectrum.

Income Streams for EweGrow

Additional EweGrow streams of prosperity;

>a competitive percent of (all but FUN) site sales-a lower percent than Amazon, eBay or Etsy.

EweGrow, an **agent** for gig hires:

>builders/home aid

>Farming support/gardeners

>Healers/doctors

>ALL educators

>EweGrow provides agency for 25% of the fee. Ex: A person pays \$100 for garden help, the gig hire receives \$75, EweGrow \$25.

>Retail from wholesale:.5% recoup of 10% discount for promoting local businesses.

>EweGrow Logo Product sales.

> 25/75% membership investment split with EweGrow and PEG funded businesses is a permanent feature of EweGrow, continually expanding the breadth, strength and numbers of EweGrow sales partnerships.

3, 5, 10 years from now, the 8 member-managers EweGrow LLC will be well rewarded, while rewarding the best outcome for the Good of All.

By design, the EweGrow company promotes The Great Healing of Earth through universal prosperity of a growing Alliance and direct empowerment for each of us to care for Nature and thereby be healed by Nature.

ALL All Life Learning

An allied and universal support for each's learning path from the moment of conception to the moment of passage is here proposed. Wage enslavement and debt indenture removed, a creative and complete transformation awaits.

Clean water, true organic food, clean air, safe homes and neighborhoods, enough income, these requirements for health are universally shared.

When we financially encourage all personal passions to fulfill these collective needs, in effect we are collateralizing peace and freedom itself. Faith in the sum of our collective purposes grows as our needs are fulfilled by designing our economy and money method to directly accommodate and serve We, The People.

Freedom carries with it responsibility towards freedom of all others, and generates personal growth. Our collective wisdom is deep and may be imparted, shared, absorbed and proven in new ways beyond our previous educative and collegiate methods. EweGrow will encourage new ways to do so.

As we cope with the state of our future, realizing how we arrived to this collective experience of environmental and societal crisis, every element of our social contract is up for review. How to better be in right relationship with our country, ourselves, each other and Nature is clearly involved.

In conjunction with FoJ, PEG, FUNs, ALL will act like gears to propel the Alliance towards a healthy increase of individual and collective powerfulness, skill level, accountability, and effectiveness. Our disposable wasteful economic drivers shall become an economy of quality goods and services driven by a wholesome transpolitical sum of treasured experiences.
